Free Eyeglasses for those in Need

Budila, Romania

The eyeglasses project provides glasses to those in need. We set up with our partner optometrists and tested the eyes of those who in some cases, haven't seen clearly in years. The glasses are made overnight and day two of the project is a great excitement!!

Free Eyeglasses for those in Need

Budila, Romania

The villages in Romania are still developing and make up 80% of the population. Though those that live in the major cities have many modern conveniences, the village population is left wanting.

International Medical Workshop

Constanta, Romania, Autumn 2019

This year's International Medical Workshop was held in Constanta, Romania in October under the leadership of Prof. Constantin Tica. Over 200 surgeons participated from all over the country. Heading up the team was Prof. Thomas Boemers, Dr. Tobias Klein, Dr. Lena Gindner (all from Germany), and Dr. Mircia Ardelean (from Austria). This team has frequently volunteered their time and expertise to come to Romania and perform surgical wonders for children in difficult physical situations. They did 18 consultations over several days and then went on to do 4 extremely complicated surgeries for the workshop to teach their procedures to the Romanian surgeons while saving the lives of these children. Always an honour!

International Medical Workshop

Constanta, Romania, Autumn 2019

In memory of

PROF. CONSTANTIN TICA

Who lead the International Medical Workshops for over a decade as part of his life long career dedicated to the saving of the lives of children in Romania. He will be sorely missed!

FIRST AID DIPLOMA COURSE

Kids Camp

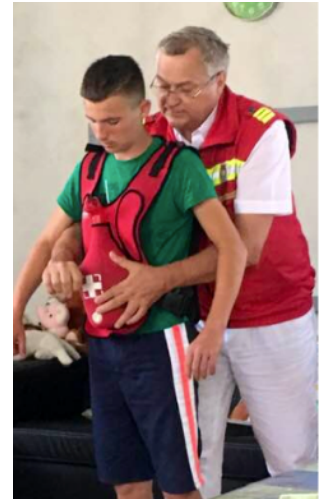

Offering kids from all our projects a chance to experience Summer Camp

Pool and Water Rescue

This year Caty Roos took the older kids who have come to summer camp for 10 years and ran a camp of training them how to organize a children's camp. Part of the camp was a national first aid diploma course, run by the authorized team from

Bucharest 🇷🇴 ...great work!

Mobile Classroom

keeping children in school and teaching adults literacy

The Mobile Classroom Project is now in its 10th year of operation. This project offers after school programs for children of all ages to help keep them at grade level as well as literacy programs for adults. It provides school supplies, educational field trips, and a daily presence of a qualified educator

who truly cares for the families she works with.

In most of Romania, if a child is not at grade level, there is no option for them but to drop out and take their chances without an education. This means working jobs at the lowest pay-scale which are not enough to live on.

Our program helps to keep a group of over 80 children in school so that they have a real chance at a better future!

School Supplies, Socks & Shoes!

practical help for children

Each Fall, there is an expectation for children to arrive to school with a list of supplies which have been pre designed by the local school system. Very much like western schools, this is a standard understanding. The beneficiaries of our program are not always able to afford these things and in fact, don't often have the shoes they need to make the long walk to school. Our Back to School program provides both. The books and writing utensils necessary, and warm shoes for those rainy and snowy days where wet and

cold feet can end up in sickness The kids are always overjoyed to receive "Back to School" supplies and to have new socks and shoes for the Fall and Winter seasons.

Our Winter Shoes Project reached 78 children this year with the help of Ron Kubek and Jason Goertzen from Canada. Izabella, our Mobile Classroom teacher, did another great job of getting shoes and socks for all the kids this year.

Hampers

bringing joy and provisions for the Winter season

Christmas Hampers for 300 people this year was the most organized yet! Thanks to the organizational skills of our team member Cornelia Iacob, things ran smoothly and efficiently! Our volunteers this year were Ron Kubek, Jason Goertzen, and a small team of youth from our farm project, who were only toddlers when this project began some 12 years ago! Merry Christmas Everyone!!
